Sealing Material: _____			From _____ to _____ ft.		
			Borehole Dia. (in.): _____		

The Authority Board requires submittal of supplemental documentation of the following information for it to consider this application complete including, but not limited to, the following:

1. A copy of the groundwater well contractor's license as required by California Water Code section 13750.5, as said statute may be amended, renumbered, or restated from time to time;
2. Demonstration that the contractor has not incurred any reprimand, civil citations, or penalties under California or local law the past eight (8) years;
3. Construction plans, including plot plans;
4. A description of any expected effects on groundwater levels and groundwater quality;
5. A description of land use in the vicinity of the wellhead within three hundred (300) feet and any safeguards currently in place to protect the wellhead from contamination;
6. With respect to the construction of wells on trust land that the applicant does not beneficially own, evidence of the requisite consent by the beneficial owner of the trust land and the Secretary of the Interior for the construction of the well on trust land must be submitted by the applicant; and
7. Any other information deemed appropriate by the Authority Board.

SIGNATURES/LEGAL

I have read the entire application and agree to comply with Tribal Ordinance No. 55, and its implementing regulations as amended. I declare that the information furnished in this Application is true and correct, and that I am legally obligated to obey all requirements of tribal law governing the Tribe's Groundwater.

Signature: _____ Date: _____

Any permit issued pursuant to Tribal Law constitutes the Agua Caliente Water Authority's permission to produce the Tribe's groundwater subject to the terms of the permit and Tribal Law. No permit issued by the Agua Caliente Water Authority shall be construed to, or ripen into, any right to groundwater other than the Agua Caliente Water Authority's permission to produce the Tribe's groundwater on the Agua Caliente Indian Reservation. No permit granted by the Agua Caliente Water Authority may be transferred, exchanged, sold, assigned, devised, inherited, or otherwise conveyed, except as provided in Ordinance No. 55, and its implementing regulations.

The Tribe's federal reserved right to groundwater preempts and precludes any groundwater replenishment assessment imposed by Non-Tribal Water Agencies or Producers of the Tribe's Groundwater. See Ord. No. 55, Sec. II.L.
